Testimonials

“As a 5-time founder entrepreneur, I have worked with numerous investors at various stages. Vistara has been especially impressive in their involvement with Kore, initially as a lender and now as an equity partner.

Its critical for founders to partner with investors that have had experience not only in good times, but ones that can deal with bumps in the road and help make important decisions in the best interests of the company. I look forward to a continued long term highly productive relationship with the team at Vistara as we execute on our ambitious growth objectives.”

RAJ KONERU FOUNDER & CEO

“We can't speak highly enough about our partnership with Vistara Growth. Their tailored debt solutions have enabled us to time the equity investment market, while continuing to invest in growth without the burden of immediate repayment. Vistara's investments have come in the form of non-amortizing term debt and convertible debt, which then became part of our Series C round. Their continued support was again demonstrated when they further upsized our existing facility to keep pace with our growth. Vistara's unwavering support has been instrumental in our success to date, and we highly recommend them as a trusted partner for companies seeking to accelerate their growth.”

AVI FREEDMAN FOUNDER & CEO

“This is the second time I have worked with Vistara, and both times it hit the mark with tailored financing solutions to accommodate different company and shareholder preferences. Vistara is nimble and collaborative in approach and has always followed through on its word, providing certainty during a critical growth period. I am happy to continue my relationship across successive companies with Vistara.”

BARNEY SILVER CFO (EXITED - 2024) (EXITED - 2021)

“Vistara has been a very helpful and collaborative investor and partner over a number of years, and has been an insightful contributor to the executive team and Board. Zafin has used capital provided by Vistara in order to accomplish goals at different points in our growth cycle.

Their patient and creative investment structures have enabled us to fund our continued accelerated growth path, while creating the flexibility to raise traditional equity capital at more optimal junctures and limit overall dilution.”

AL KARIM SOMJI CO-FOUNDER & CEO (EXITED - 2024)

“As the founder and CEO of D3, I have had the privilege of partnering with Vistara Growth to take our business to the next level. The growth equity provided by Vistara has been instrumental in helping us to really advance our go-to-market efforts while continuing our product development. Their team has not only provided us with capital to invest in the business with but also acted as a sounding board and provided guidance that has helped us make strategic decisions for growth.

Their understanding of the cybersecurity domain and commitment to our success has been a major factor in our accelerated growth and expansion. I highly recommend Vistara to any business looking for a trusted partner to support their growth goals.”
